New Federal Franchise Measure to Continue Enumeration Plan.

AS TO ALIENS

Cannot Qualify Through Marriage or Parents' Naturalization.

Ottawa, Feb. 12.—The Franchise Bill which the Government proposes to bring before Parliament at its approaching session is nearing completion. It is understood. The legislation is being prepared, not in anticipation of any early election, but because no workable machinery now exists for holding a federal general election. The War Time Election Act has ceased to be applicable. The Dominion By-election Act of 1915 applies only to by-elections. The old Dominion Election Act, moreover, because of changes in both Dominion and provincial laws, has become obsolete. Recent Federal legislation, for instance, has conferred the franchise upon women upon practically the same terms as men. The Province of Quebec, on the other hand, has not given women the vote. Again, some provinces, among them Ontario, have adopted new methods of preparing their voters' lists. Ontario has provided that lists shall be made by enumeration, and only in anticipation of an election. Other inequalities also exist which make it impossible to follow the old Dominion Election Act, and simply adopt provincial lists for use at Federal elections.

That being so, it is understood the legislation now being prepared will provide for the preparation of Dominion lists. Wherever practicable, provincial lists may be made the basis of the Dominion lists. That is to say, if a provincial list has been made within a reasonable period, for instance, one year, it might be utilized in the preparation of the Dominion lists. The Federal bill will likely, it is said, provide for the completion of lists by enumeration or registration. Under this plan likely to be adopted, the enumerators would adopt it for Dominion purposes by adding the names of persons entitled to vote of women, for instance, in Quebec, and striking off the names of persons entitled to vote at the provincial election, but not qualified to vote at the Federal election. If no recent provincial list existed, the enumerators would proceed to prepare a new list.

As to far as qualifications of voters are concerned, it is probable the new bill will follow the special act passed last year to permit the holding of by-elections. The by-elections Act, which conferred the franchise upon all persons, male and female, of the full age of 21 years, who had the necessary residence qualifications, and were British subjects by birth or naturalization. The sole exception was that persons born in the North American continent, however, did not extend to persons born in the North American continent. Furthermore, provision was made for the extension of the franchise to women who might have lost their citizenship through marriage.

It is reported that the new bill will also contain a provision calling for publication of information with regard to contributions to the campaign. Some time ago it was announced that a "Speaker's conference" would be convened to discuss the advisability of applying the principle of proportional representation in Canada. The Speaker of the House of Commons, the Speaker of the Senate, and the Speaker of the Legislative Assembly of Ontario, have not yet been named for the calling of the conference by the Speaker of the House of Commons. It is suggested, however, that such a meeting might most conveniently be held during the session of Parliament, inasmuch as members of Parliament would be named to participate in the discussion.

The preparation of the new election bill has been in progress since the meeting of the Cabinet, composed of Hon. Meares, Doherty, McLeod, and Guthrie. They have been drawing a bill for consideration of the whole Cabinet, and finally for introduction in the House of Commons.

Parliament to Consider Participation.

Will Probably Submit Reservations.

The Hague, Feb. 12.—Negotiations of the Dutch Government with other countries regarding the League of Nations have been without result. The Dutch Government has not submitted a reservation to the League of Nations, which is to be submitted to the Parliament, which to-morrow will take under consideration the League of Nations. The statement says that neutrals could not make general reservations, because Article 1 does not admit of any. The Dutch Government's decision in submitting the League of Nations to the Parliament is explained on the ground that the United States has not taken any action as yet, and the Scandinavian countries have also delayed their decision. The Dutch press has not been asked to submit a plan of a high court of justice, and the Netherlands, as a result, which will be further discussed at a meeting of delegates from Holland, Belgium, and the Scandinavian countries, at The Hague, on Feb. 18. The Dutch press considers Holland's entrance into the League as certain, though probably reservations will be submitted and discussed in Parliament.

Messrs. Begg & Co. Limited,
HAMILTON, ONT.

Dear Sirs:—

We are hoping to this week complete the shipment to you of the 1200 pairs of Men and Boys Shoes ordered by your firm for last September delivery.

While we regret that through the largely increased business booked by our house for the past season we have been obliged to ask many of our customers to wait for their goods as in your case, still, we cannot but call attention to the fact that this delay on our part really means a big advantage to you in the matter of price.

Receiving these shoes at the prices you have now been getting them at simply means that you will be able to sell them at a saving of \$3.00 to \$5.00 to your customers as you well know your spring prices on shoes must necessarily be at a big advance. This should prove a big advantage to you and especially appreciated by your customers and we would advise your making it known to every man and boy in your neighborhood.

Thanking you for past favors,

We are,

Yours very truly,

GERMAN ARMY 400,000 STRONG

Paris, Feb. 12.—The German army is still 400,000 strong, according to a report received by the Committee of Foreign Affairs to-day from General Nissen, head of the Baltic mission. In addition, there are 100,000 German forces, officers and non-commissioned officers. Germany is also well supplied with tanks, machine guns and airplanes. In the neutral zone along the right bank of the Rhine the German forces number 150,000. The German Government is capable, if willing, of obtaining execution of the treaty clauses by the country. It's easy enough to borrow trouble. The difficulty is to find someone willing to share his joys.

NEED THIRTEEN MILLS TO MEET SCHOOLS' COST

Education Will Likely Raise the Tax Rate Again This Year.

THE FOREIGNER

Board Asked to Support Work of Education Among Them.

According to statements made last evening at a meeting of the Board of Education, to meet the increases estimated for the year 1920, the school rates will have to be raised to at least 13 mills. An increase to \$22,000,000 for the year, for public schools, compared with \$20,610,000 in 1919. This increase is accounted for mostly by the increases in salaries which have been granted the teaching staffs and inspectors, which amounts to \$2,000,000 over 1919. The estimates were unanimously approved, and will be sent to the Board of Control immediately. Last year the expenditures of the Board of Education were \$11,214 below the estimates, but a great deal of this was resultant from the Board's inability to secure teachers for certain branches of the work.

A suggestion was received from the Board of Control, for a conference re the appointment of a civil architect for all buildings. It was at first suggested that the Building Committee take on this matter, and report back to the Board of Education. Others of the board objected to this, the building committee should confer with the Board of Education to get an architect to prepare the plans for all buildings. After a long talk on the matter, the city taking up the matter locally. The committee was asked to appoint a committee to confer with the Board of Control, and the committee should confer with the Board of Control.

A recommendation was made in the report of the Industrial Technical Committee, that Architect Wilson be instructed to prepare a draft plan for a new school building. This would be placed in the hands of the Board of Education, and the Board of Education would be asked to employ a civil architect. F. K. Fowles, chairman of the Hamilton Technical Association, in a letter, made the suggestion that the children of the schools be allowed to visit the museum and the school building. The suggestion did not meet a very hearty reception, the majority of the board being of the opinion that the children should be kept out of the school building. Mr. P. W. Philpott placed before the board the matter of educating the children of the foreign-born. Mr. Philpott asked for only the moral support of the board, to assist in the work of the children of the foreign-born. He explained that the majority of the children of the foreign-born are ignorant of Canadian history and ideals, and this would be an ever growing menace, were it not coped with in the near future.

In the classes now being held in the Y.M.C.A. building, a survey was made, which was procured for this purpose, seven nationalities are represented at the present time. George H. Allan pointed out that the majority of the foreigners were natives of the European continent. A. M. Cunningham recommended that the board give it over to the Y.M.C.A.

BEGIN SURVEY OF ST. LAWRENCE

Development Would Cost Over \$250,000,000.

Commission Favors Treaty for Two Governments.

New York, Feb. 12.—Development of the St. Lawrence River between Montreal and Lake Ontario, which is being considered by the International Joint Commission on Waterways, has been estimated at more than \$250,000,000. Obadiah Gardner, former United States senator from Maine and chairman of the American section of the commission, said today:

"That part of the river navigable for deep-draft ocean steamers would cost about \$200,000,000, and the development of the river for navigation—about 2,000,000 horse-power—would cost about \$200,000,000, according to the estimates reported to Mr. Gardner."

Consideration of the St. Lawrence development includes a programme of commission heading during April and May at Montreal for the purpose of both sides of the boundary. Mr. Gardner said:

"A preliminary meeting in April at Montreal, for the purpose of both sides of the boundary. Mr. Gardner said:

WORK OF THE PUBLIC FUNDS

Mr. W. H. Lovering Spoke to Hamilton Association.

Pensions Should Be Increased at Once.

"Soldiers' Families" was the subject of Mr. W. H. Lovering's address before the Hamilton Association last night, at its regular meeting. In his capacity as Chairman of the Relief Committee of the Canadian Patriotic Fund, of this city, he has had ample opportunity of studying from all aspects the care and support of soldiers' dependents, and gave a complete and comprehensive report on the work of the fund, past and present, of the Canadian Patriotic Fund and the Relief Committee.

While Canada promised before sending her men overseas, she is fulfilling, he declared, out of Canada's \$50,000,000 surplus, approximately 200,000 have been dependent, but in the face of a surplus of \$7,000,000 still remains out of the \$50,000,000 subscribed to patriotic purposes.

Hamilton, with 11,000 volunteers to her credit, has 5,000 families which have received support from the fund. One hundred and thirty-two cases have received support from the local branch within very recent date.

"The work of the society has not laid altogether in administering support to school children, it was to make investigation into the separation allowances and to make arrangements for the care of the children of the soldiers of the Department of Militia and Defence at least \$11,000,000."

"The wastage of the war must be made up by our children," he said, "and we must not forget our special obligation to the orphan children of soldiers." He pointed out that in this direction, in founding a fund for the children of the soldiers, he was following a path which had been followed by other cities to follow. In referring to the martial happiness of the children of the soldiers, he was pointing out that in many cases the father, and as many as thirty-nine cases of divorce had been caused by the war. He pointed out that in many cases the father, and as many as thirty-nine cases of divorce had been caused by the war.

Mr. Lovering's experience on the Relief Committee has shown him that the work of the fund is a very important one. Britain Prepared to Give Up to \$50,000,000.

Is Awaiting Action of States.

London, Feb. 12.—Replying to a question as to what steps the Government proposed to take for the relief of Central Europe, Austen Chamberlain, the Chancellor of the Exchequer, said in the House of Commons this afternoon that the final arrangements could not be made until the Congress of the United States had granted the necessary powers. The relief administration and the British Government would have preferred to make a comprehensive plan, with Allied and neutral co-operation, Mr. Chamberlain said, but in view of the urgency of the need and despite the financial situation in the United Kingdom, the British Government has decided to take the initiative.

Mr. Chamberlain said that the British Government has decided to take the initiative. He pointed out that in many cases the father, and as many as thirty-nine cases of divorce had been caused by the war. Chicago, Feb. 12.—A gentleman's agreement for resumption of relations between the major and minor baseball leagues, with the probability that a written agreement would supersede a soon signed Baltimore Federal League suit, was settled, was in prospect to-day when club owners met in a joint session. Minor league representatives asked for restoration of the draft and the formation of a board to handle cases developing between the major and the minors. The major considered these demands so mild that they were given no consideration. President John Heydler, of the National League, and President Charles E. Johnson, of the American League, were present. Heydler would not be announced for thirty days.

The selection of a chairman of the National Commission to succeed Harry Hertzberg was left to the President John Heydler, of the National League, and President Charles E. Johnson, of the American League, were present. Heydler would not be announced for thirty days.

His Meeting of Peter and Cornelius (11: 17-30). While Peter was wondering about the meaning of the vision, the man whom Cornelius had sent stood before Simon's house and asked if Peter was there. Just at that time the Spirit told Peter that three men were looking for him, and he should go with them without hesitation or fear. To his inquiry as to why they had come, messengers told him of the vision that Cornelius had. Peter received them to his house, and on the way they met some of the brethren of Joppa went toward Caesarea with Peter, and he had gathered a company of his relatives and friends to meet Peter when he should arrive. When Cornelius fell upon his knees before Peter, Peter told him to stand upon his feet, for he also was a man. Peter told him that he had received a vision in which he was taught that he should not call any man unclean. When Peter asked Cornelius why he had sent for him, 30. completely upset me, and I was so miserable and weak that any work I did was torture to me.

"I had tried so many different things and got no benefit from them. I had lost confidence in myself when a friend of mine advised me to try Tania's. I wouldn't try it at first but finally, as I was getting worse and worse all the time, I made up my mind to take it. Now I can certainly glad I tried it for four bottles are all that I have taken and all my troubles have disappeared and I am in fine health. I don't have a sign of rheumatism or any of the other maladies are not drawn and my arms as high as I please. Every thing that I ever suffered from is by now no bad after effects at all and my nerves are as steady as a clock. I am sleeping every night, feeling fine all the time and I am so happy over what Tania has done for me that I can't wait to praise it enough."

Tania is sold in the name of Parker & Parker, by an established agency in every town. —Advertisement.

IV. The gift of the Spirit to the Gentiles.

31. Cornelius inquired: The lesson introduced us to a great era in Christian history. It records the time when the Gentiles were introduced into the Church by the gift of partition," buttressed with the traditions of generations," which divided the world into Jew and Gentile. The gift of the Holy Spirit to the Gentiles of the Christian Church to the Gentile world. Cornelius, the first to receive the gift of the Holy Spirit, was a Roman, a man of noble life, pious, and characterized by a high degree of personal and civil authority. No sincere soul seeks God in vain. It may be that the Holy Spirit is waiting on the edge of Christianity, through the evangelization of adjoining cities, to be sent to the Gentile world to learn more about the tenets of the new faith.

32. The apostle prepared. God waits from both ends of his great promise. The apostle was waiting for Peter. Peter prayed at Joppa, and both together the live will of a great divine privilege was opened; to Peter, that of a unique apostle to the Gentiles. Unconsciously to themselves

"Better not begin to-night Mrs. Archer. 'It's the last day of the year."

**Apparently Lay Blame On

Toronto, Feb. 12.—The following statement was issued yesterday from the office of the Citizens' Liberty League, 23 College street, in reply to the charge made by Hon. W. E. Rancey

"I'm going to take the midnight walk," insisted.

And so, at midnight, being the only I heard the far-off chiming of the church bells to call on the morrow! "That was

to Ferguson on Tuesday night regarding the League's efforts to defeat him in East Weylington. It is signed by T. L. Carruthers, General Secretary of the League:

"In reply to the remarks of Hon. W. E. Ramey, Attorney-General, at Ferguson on 10th inst., regarding this League, we would like to say, that his statement that 'a circular letter brought to me' had no knowledge, would seize her and would deprive her of her long-coveted freedom."

I was then, domed by the vision of little events on the panel of the wall opposite as they ought to happen New Year's Eve.

Suddenly the panel in the wall moved. It was not the door by which I had entered, but my eyes, closed them and raised the open.

I rushed toward it, too startled to

had been sent from the League to the race track proprietors in Ontario who are operating what are called key clubs in the province. "They are key clubs," he said, "and I am not sure they are not a little bit rotten. What actually occurred was, that we sent out exactly five 'personal' letters in order to find out to what extent they would support our only man, Mr. Haney."

"They only one of the men that could be characterized as a race track proprietor was Mr. A. M.

Orpen. Now what is the relation between Mr. Raney and Mr. Orpen? "For many years," Orpen said, "and by circular, Mr. Raney has been attacking members of the Ontario Jockey Club, more particularly the Hendrie family. It must be noticeable to anyone who has been made of Mr. Orpen and his half-mile track, which are admittedly run for gambling purposes. In the racing investigation recently held, it was pointed out that Mr. Orpen was a 'Sister! Let thy sorrows cease. 'Sinful brother! Part in peace!' Then the girl and the monk who have in a stone cell like—like the one—whose I had stepped into a cell which had, in a sense, been made for the punishment of recalcitrant nuns!" I screamed—I hammered on the door—something mysteriously terrifying happened. Every time I pounded upon the door I was slightly. I felt that my cell was sinking.

Was particularly subtle. The figure of Mr. Orpen, as he did from the other jockey clubs. Mr. Orpen made a little speech in the witness box which Mr. Roney practically accepted without any further question. It is pretty well known that Mr. Roney receives most of his information from Mr. Orpen, and the attacks which he has made upon others have originated with Mr. Orpen.

Orpen. Mr. Orpen's contention with racing, pool rooms, hand-books and other forms of gambling has been well known in Ontario for years. "The race tracks Mr. Raney particularly related to were the Ontario and Windsor. Again it will be noticeable that he says nothing about the Orpen half-mile tracks in Toronto. Again I ask, what is the connection between Mr. Raney and Mr. Orpen?"

—Mr. Orpen.

standard-bred have suffered. As an example Mr. J. K. L. Ross, one of Canada's foremost breeders, has during the past year been obliged to sell his farm to the United States and Canada has thus lost one of the finest horse breeding establishments in North America.

"We contend that the farmers of the Franco-Canadian thing," carefully before electing as one of their representatives a man with Mr.

Raney's well-known and often expressed views.

"I do not blame Mr. Raney for making use of the matter put before the public by his own interests. I think he was injudicious, as he should find, before election day, that the 'disclosure,' as one paper calls it, will prove a very nasty 'boomerang.'"

"General Raney," says the attorney, "I really realize that in our opposition to his candidature there is abundant cause for regret."

"There is no question but that through the activities of Mr. Raney and his clients the horse breeding industries both thoroughbred and

IV. The gift of the Spirit to the Gentiles.

The Gentile inquirer. The lesson introduces us to a great era in Christian history. It records the first time that the "Gentiles" were "of partition" buttressed with the traditions of generations," which divided the East and the opening of the door of the Christian Church to the Gentile world.
